REISSUE DECLARATION

Sir:

CANTOR FITZGERALD, L.P., a limited partnership organized and existing under the laws of the State of Delaware (hereinafter "CFLP"), and CFPH, L.L.C., a limited liability company organized and existing under the laws of the State of Delaware (hereinafter "CFPH"), are the joint assignees of the entire right, title and interest in and to the above-identified United States Letters Patent No. 5,905,974 as set forth in a certificate under 37 C.F.R. § 3.73(b) filed herewith.

I, as an undersigned representative of CFLP or CFPH, hereby declare that:

I am authorized to act on behalf of CFLP or CFPH (as indicated by my signature below);

Express Mail Label  
No. EI125454835US

My name and title are indicated by my signature below;

I have reviewed and understand the contents of the attached reissue specification, including the claims, and verily believe that Stuart A. Fraser, Howard Lutnick, and Bijoy Paul are the original, first and joint inventors of the "AUTOMATED AUCTION PROTOCOL PROCESSOR" invention described and claimed in this reissue application and for which a reissue patent is sought;

I do not know and do not believe that said invention was ever known or used in the United States before the above-referenced invention thereof, or patented in any country before the above-referenced invention thereof, or more than one year prior to the December 13, 1996 filing date of United States Patent Application No. 08/766,733 which matured into Letters Patent No. 5,905,974 ("the '974 patent"), or in public use or on sale in the United States more than one year prior to said application filing date, and that the subject matter of Application No. 08/766,733, filed December 13, 1996, was not patented or made the subject of an inventor's certificate prior to said application filing date in any country foreign to the United States on any application filed by the inventors or their legal representatives or assigns more than twelve months before said application filing date;

I make this declaration under 37 C.F.R. § 1.175 in support of this application for reissue;

I believe the original '974 patent to be partly inoperative by reason of a defective specification or drawing, and by reason of the patentees claiming more or less than the patentees had the right to claim in the patent;

The specification is defective at least because it mis-defines which trading participants are "current workers" at column 8, lines 47-50;

All errors being corrected in this reissue application arose without any deceptive intention on the part of the inventors or assignees; and

I hereby acknowledge my duty to disclose to the Patent and Trademark Office information of which I am aware that is material to patentability of the claims of this reissue application in accordance with 37 C.F.R. § 1.56.

I hereby further declare that I understand the English language, and that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and the such willful false statements may jeopardize the validity of this reissue application or any reissue patent issued thereon.
